Unmatched Security Solutions

COMPANY Profile

A Brief Introduction

CEO's Message

After spending past several years with **Pak Country Security Services (Pvt) Ltd**, I feel very privileged in writing this message as the Chief Executive Officer.

We began our journey in 2011 and have spent the past decade continuing to build our service, which has now become synonymous with our commitment in helping our clients to share knowledge and create innovation. We have become the leading provider in the city, Karachi. We have expanded our presence throughout the country. It is also important to note what has not changed at **Pak Country Security Services (Pvt) Ltd**, namely our commitments in providing exceptional client services.

Looking ahead, we are focused on accelerating the execution of our growth strategy while continuing to build on the strength of our service in helping our clients share knowledge and create innovation and in bringing positive change to the communities in which we work and live.

I am incredibly excited about this journey and truly believe the best of **PCSS** is yet to come.

Sardar Nadeem
CEO

About Us

We M/s. **Pak Country Security Services** (Pvt) Ltd (PCSS) got NOC from Government of Pakistan Ministry of Interior in 2011.

Our Company was incorporated on 28th February, 2011 in order to adequately combat the menace of lawlessness in most awful prevailing law & order situation in Pakistan. The Government of Pakistan has permitted us to operate the Security Services in Sindh, Balochistan, Punjab, KPK, ICT, GB and AJ&K.

Our principal endeavor is to provide you professional advice on security matters besides being at your beck & call for any security need.

Our Goal

The goal of the PAK COUNTRY SECURITY SERVICES (PVT) LTD Company is to raise the level of security awareness, provide cost-effective security solutions and believe in the efficient & effective training of our security personnel to properly deal with security-related issues and problems.

We believe in complete satisfaction of each client on the basis of our performance.

Services

CCTV Installation/Maintenance

There's nothing more important than the safety of your family and home. Installing a home security system is a practical measure that anyone can take to help safeguard what matters most. It's no surprise that a host of new-and-improved home security systems have taken the market by storm. Today's consumers have more options to choose from than ever before. That's great news, but it also means that finding the home security system that's perfect for you can seem overwhelming.

The company has the capability to undertake mega projects related to installation of CCTV, Building of Control Room to monitor the CCTV footages and live feeds. Moreover, company has technical staff on its payroll for the subsequent maintenance of the installed CCTV system.

E-Fencing to protect Perimeter Walls

After all nothing matters more important than security of your premises. The robbers come into the house and carry out robbery and in the course of event injures a family member or fatally inflict a wound. Do not let this happen to you. E-Fencing is the state-of-the-art technology which guarantees safety of the house or premises from theft and robbery. The fence is electrified and gives a jolt to the intruder of approximately 3-5 joules which immobilizes the intruder for 30 minutes and generate SOS alarms and SMS to the designated numbers.

Our company has a JV (Joint Venture) with a company in Pakistan. One year warranty and replacement of parts comes with the package.

Intruder Alarm System

Keep your house safe from intruders. The intruder alarm system is again a state of art equipment which keeps your house safe. It normally combines with the electrical light system. Whenever, there is an intrusion, the alarm is generated along with lighting the entire premises with security lights.

Vehicle Access Control System (VACS)

This arrangement is done in the buildings to restrict the movement of undesired vehicles. The system comes with boom barriers, vehicle under surveillance system, integrated with RFID, tyre busters and road blockers. Our company has the capability to undertake these mega projects at a competitive market price.

Personnel Access Control System (PACS)

The company has the expertise of installing PACS, which limits the entry of unauthorized personnel. It can be done either through biometric machines or through RFID (Radio Frequency Identification) cards.

Our company can undertake the projects in a befitting manner to the client satisfaction.

Walkie-Talkie 4G (Nationwide Coverage)

Addressing the instant communication needs of on field & on ground workforce over a long range, PCSS Walkie Talkie offers a secure cloud-based GSM enabled service that lets you establish continuous communication between individual and groups; where a push of a button starts communication & the receiver does not need to answer the call to receive the message.

The teams are no longer restricted by the boundaries of their site or the range of their network as they get all the benefits of push-to-talk technology from radio, with none of the limitations.

Walkie Talkie is the one stop solution for all your instant communication requirements:

- ◆ Rugged Devices with extended battery life
- ◆ Instant & Secure Communication
- ◆ One to One to One to Many Communication
- ◆ GPS location with geo-fencing
- ◆ Self-service Management Console for Complete Visibility
- ◆ Voice message recording and playback

Key Benefits

- ◆ Reduced communication cost
